Project Team

12.45 - 13.00 **Closure of the meeting**

Andrés SALCEDO VELASCO

End of the meeting

GENERAL INTRODUCTION

This meeting takes place under the first component of the EuroMed Justice III project: Access to Justice and Legal Aid. The objective of this activity will be to prepare a handbook which identifies and describes possible approaches and best practices to improve access to justice and legal aid. This is the second of 5 meetings related to this issue. Methodology for the preparation and delivery of the handbook: the Working Groups (WGs) will function as real think-tanks in the field covered and will be an opportunity to exchange information and debate on various topics. The results of the work of the WGs will be of paramount importance to obtain a real knowledge of the legal systems and have in-depth discussions on the topics concerned. In addition, the handbook will also be able to be used as a practical guide. The handbook will be prepared in time to be presented to the Intermediate Regional Conference in the course of the second year of the project.

During this second meeting we will continue the work started on the occasion of the first meeting and will have a new opportunity to share the international experts' opinion and the participants' approach on the main topics under discussion from their own perspective and respective competences. Through an in-depth and detailed discussion, we will have a real and open discussion on the main topic addressed during this second meeting: length of procedures, delays and timeframe for judicial proceedings

The Beneficiaries countries experts' profiles

Three representatives from each ENPI South partner country: senior, high level officials from the Ministry of Justice or other relevant public authority, members of the judiciary and other legal professionals, academics and representatives of civil society with a solid experience of the topics covered by the WG (Timeframe for judicial proceedings, Cooperation between judges and Bars to cope with the length of the procedure, facilitation of the accessibility of justice for citizens, in particular with regards to mechanisms such as "one-stop-shop" offices, access to justice for underprivileged groups, legal aid, etc); prior participation in relevant EuroMed Justice I or EuroMed Justice II project activities will be an advantage; availability for and readiness to the intensive work schedule involved, both with respect to the WG activity and with researching, preparing for WG meetings and contributing to finding documentation and to the drafting of the handbook; ability to understand and express her-/himself and writing in English and/or French (at least the written communications/contributions should be in French or English); due attention will be paid to ensuring that persons taking part in activities related to exchanges of experience and good practices hold strategic positions in their national institutions and that, in this capacity, they will be likely to share with their colleagues and staff lessons learned from such activities.

The experts (3) should have the appropriate profile, a comprehensive knowledge and vision, a sound experience in this field and willing to make an effective contribution to the working group. This will require not only that their country of origin allows them to have enough time available to attend the five meetings planned for this activity but more specifically, that in between each meeting they have enough time to keep on working together and with the main short-term expert in charge of the handbook and the Project Team, virtually through the Project website and/or other means (email, etc.), so as to allow for continuity of the work and an exchange of information, documentation and ideas with each other. For this reason, it would be highly desirable that the same persons attend all the WGs meetings or at least that the head of delegation be the same for each meeting.
