Offer to EuropeAid an efficient, professional, realistic and quality proposal

Offer a flexible response to some of the needs that have been identified as being priorities in the reflection process resulting from the project implementation

Mission

Without increasing its overall cost and the human or material resources used so far.

This implies an extension of the project execution and implementation period from 15 September 2014 until 15 March 2015

EUROMED JUSTICE III PROJECT PROJET EUROMED JUSTICE III

OBJECTIVES

Deepening the existing action lines by organising activities on critical elements

Delivering innovation in content and methodological aspects

Activities should be, we believe, cautiously achievable in the time limits and with the financial and human resources available

These activities are relevant from the point of view of the general and specific objectives

A proposal that is respectful of and consistent with the TOR's

To capitalise on the experience and knowledge gained

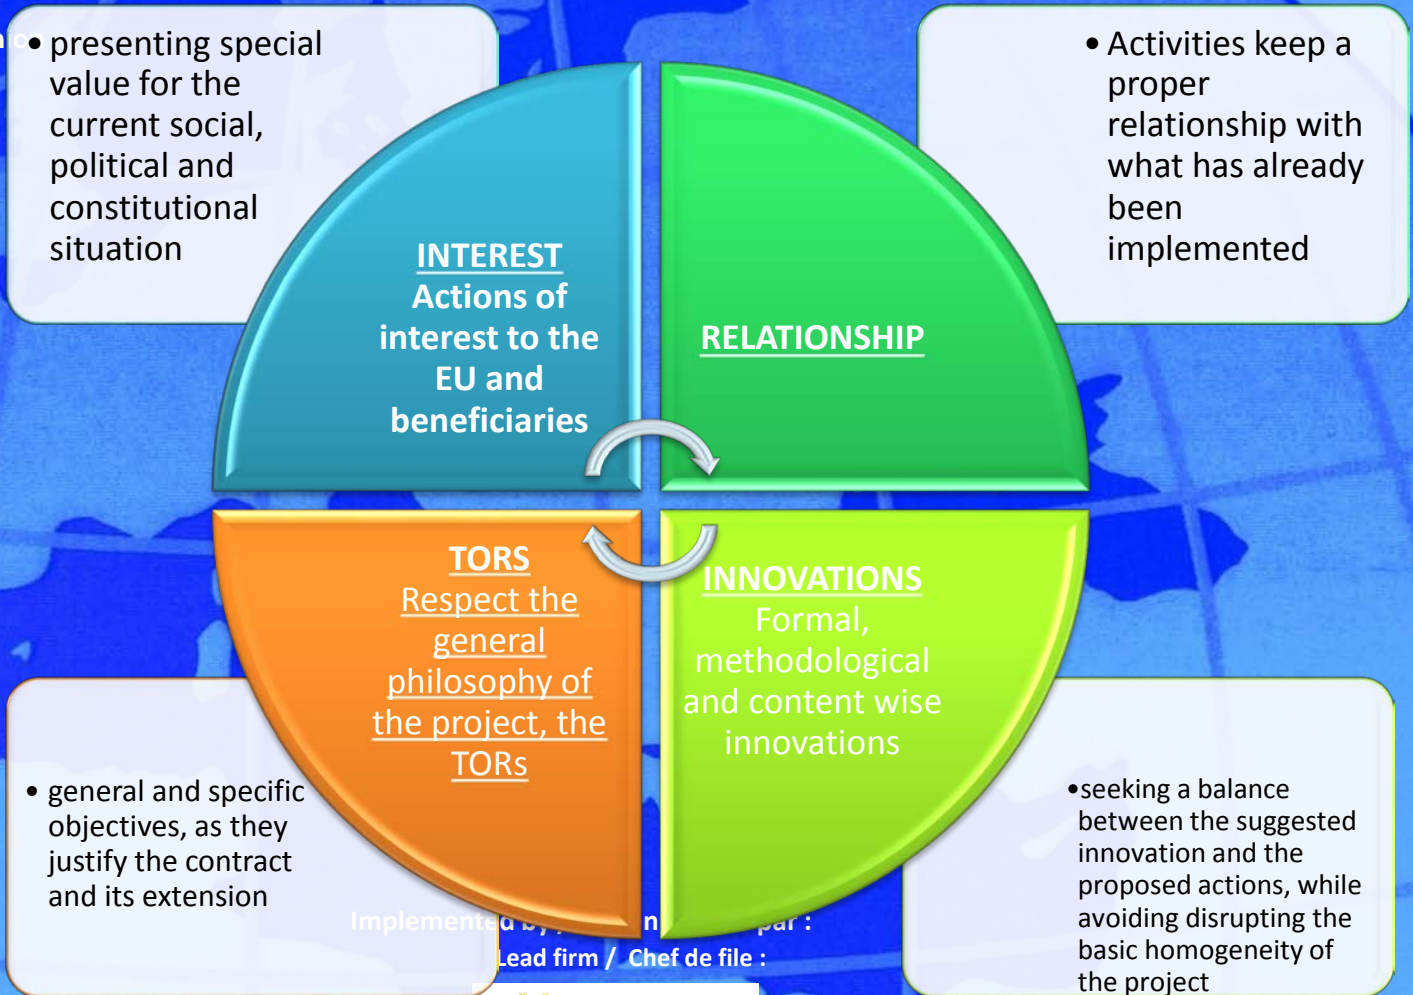

To add new activities

To reschedule the Project Final Conference

EUROMED JUSTICE III PROJECT STRATEGY

•avoiding differentiated treatment between the BCs, as this could be misunderstood by them and could generate in the last phase of the project mistrust and suspicions, or negative reactions from some countries

EUROMED JUSTICE III PROJECT WORK PLAN

FOCUS MEETING / MISE AU POINT

30.09.2014 Barcelona

- to present the proposed extension phase of the project.
- to present the activities contained in this proposal.
- to obtain the BCs' support for the implementation of the extension period.
- to obtain synergies for the implementation of the extension.
- to carry out an analysis of the already implemented project phases and their optimisation with respect to activities, programmes and projects of bilateral cooperation between the EU and the beneficiary countries in the Justice sector.
- to anticipate some initial thoughts on the results obtained.

EUROMED JUSTICE III PROJECT WORK PLAN

SEMINAR COMPONENT I

Quality of Justice, Judicial Policy, governance, competences of the Judiciary and a Legislative Programming for the Administration of Justice and the Judiciary

- analysis of the division of governance powers -constitutional and legal- of the Judiciary and the Administration of justice between the various institutional actors and powers, their respective roles and capacities and the legislative agendas of the EU and the EU MS, and their legislative strategies and parliamentary action programmes within the remit of EU competences and of the EU MS Ministries of Justice in relation to the contents of judicial policies and administration of justice. Review the models in place in the ENPI South countries and compare them with models in place and evolution occurred in the EU MS while approximating them to "standard" trends in these fields and identifying the most thorny issues and the best regional examples at horizontal level.
- analysis of the legislative agendas of the EU and the EU MS, (topics covered by Components I, II and III and other related topics) and their legislative strategies and parliamentary action programmes.

SEMINAR COMPONENT II

EU, EU MS and ENPI SPC: cross-border regulations and cross-border family conflicts.

- catalogue of major problems that can be found in an intermediate area between family law, cross-border regulations and internal security regulations. These are very relevant problems to solve international conflicts in family law and have a concrete impact on an effective exercise of the rights.

SEMINAR COMPONENT III

Comprehensive Legal Status of victims, with particular attention to gender-based violence, interfamily violence and victims of terrorism

- very technical seminar; it should make it possible to carry out a comparative overview on one or two more clear and relevant EU MS comprehensive regulations, with the aim to give the ENPI SPC the opportunity to identify the lack in their internal law of regulations according to the regional standard and compare their system with a very concrete EU – EU MS regulation. This seminar will be an exercise of technical assistance with a view to creating and improving the said internal regulation.
